SUMMARY

Senior React Native Developer with 4 years of experience delivering scalable, user-focused mobile apps. Proficient in React Native, JavaScript (ES6+), and modern frameworks. Leads teams and drives Agile projects to completion with strong API integration, performance optimization, and code quality focus.

WORK EXPERIENCE

GTechSources: React Native Developer

Dec 2023 - Present

- Aligned cross-functional teams on technical requirements and project milestones by facilitating requirement gathering sessions, leading to a 15% reduction in scope creep.
- Partnered with 5+ cross-functional Agile teams, including developers, testers, and stakeholders, ensuring seamless communication and the on-time delivery of critical mobile applications.
- Developed and deployed scalable backend services using Node.js, Express.js, MongoDB, and PostgreSQL, building secure RESTful APIs, optimizing database performance, integrating third-party services, and managing production deployments to support reliable, high-performance mobile applications.
- Responsible for integrating and maintaining core mobile application functionalities and background services, including CI/CD pipelines, real-time chat, navigation and mapping services (MapBox, Google Maps), push notifications, Localization, OTA updates, Google AdMob, Firebase services (Cloud Functions, Google Analytics, Firestore, Storage), and real-time voice/video calling solutions using Agora.
- Leveraged AI-powered development tools, including Cursor and Antigravity, to accelerate software development workflows, improve code quality, and enhance productivity by up to 10x.

Digital Innovation: React & React Native Developer

Oct 2021 - Nov 2023

- Developed responsive, pixel-perfect UIs using React and React Native with smooth cross-platform performance.
- Integrated RESTful APIs and optimized app performance for speed, scalability, and responsiveness.
- Collaborated with cross-functional teams to deliver features aligned with client needs and user expectations.
- Successfully deployed 15+ mobile applications on the Google Play and Apple App Store while ensuring full compliance with platform policies, review guidelines, and security standards.

EDUCATION

B.Sc Electrical Engineering

2014 - 2018

University of Engineering and Technology Lahore

SKILLS & STRENGTHS

- React Native CLI / Expo
- Context API/Redux-Saga/Redux Toolkit
- JavaScript/TypeScript
- React.js
- HTML / CSS / Bootstrap/ Saas /
- Nodejs/Express/MongoDB/PostgreSQL
- Docker
- Git / Github / Bitbucket / Jira / ClickUp
- S3,
- Video calling interation (Agora)
- Live chats integrations (Web-Sockets)
- Live Navigations (Mapbox & Google Maps)
- Firebase services (Cloud functions, Firestore, Push Notifications, Authentications, Analytics)
- Adds integrations with AdMob (Banner, Interstitial, Rewarded, App-Open)
- CI/CD Pipelines (CircleCI & GItHub Actions)
- Localization and Themes(dark, light) integration
- Payment Gateway Integrations (Stripe and In-App Purchases)
- Offiline Support (Async Storage, MMKV)
